

Pipeline Emergency Response Training

The Pipeline Operators of Colorado is comprised of 51 pipeline operators with facilities in Colorado. They are offering **FREE** pipeline emergency response training covering the basic properties of natural gas and other petroleum products as well as hazmat response, meters, and command center coordination.

Experienced hazmat instructors are available for day, evening, and weekend training sessions. The sessions typically are 2-3 hours long and involve interactive exercises customized to meet the needs of your organization. Local pipeline operator personnel will be there to provide specific information about their facilities and response capabilities.

If your organization is interested in FREE training, please fill out the Online Training Request Form at: <https://poco.pipelineawareness.org/poco-training/> or access the form on your mobile device with the QR code below:

If you just need more information, please email us at: poco@pipelineawareness.info.

Agencies participating in a training will be entered into the drawing to win a \$2,000 Agency Grant when they submit their [**EMERGENCY RESPONSE CAPABILITIES FORM**](#)
